School Uniform and You Can Do It Program Review

School Uniform Survey

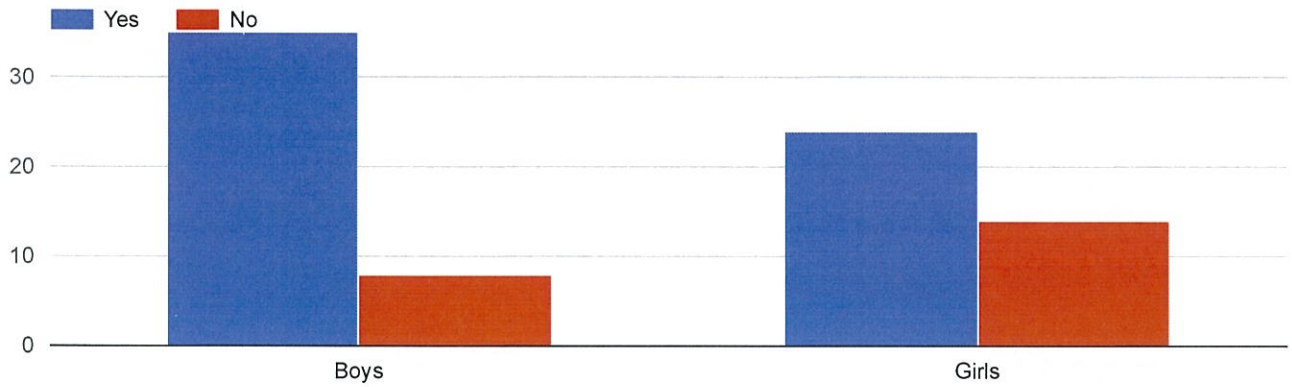

My child is currently in (select multiple if you have more than one child):
(55 responses)

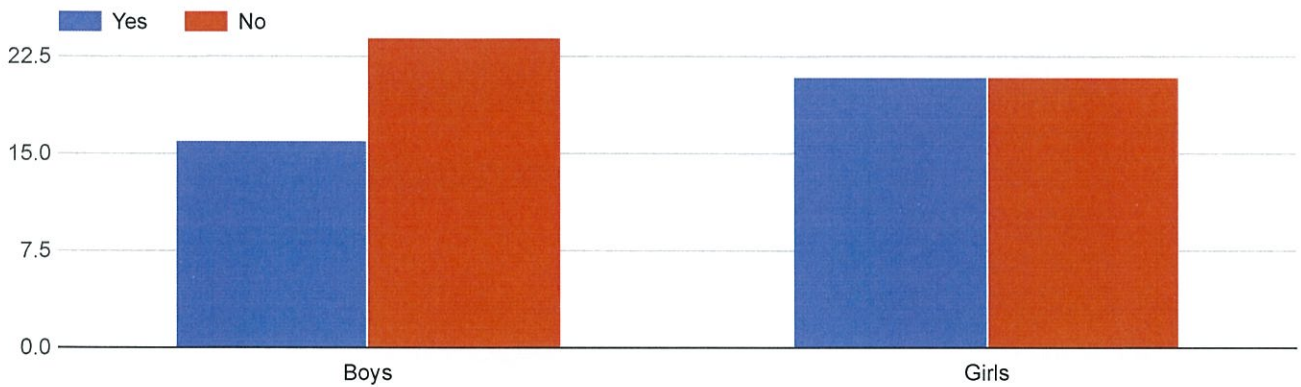

Are you happy with the current summer school uniform?

Are you happy with the current winter school uniform?

Is there need for a warmer winter school uniform?

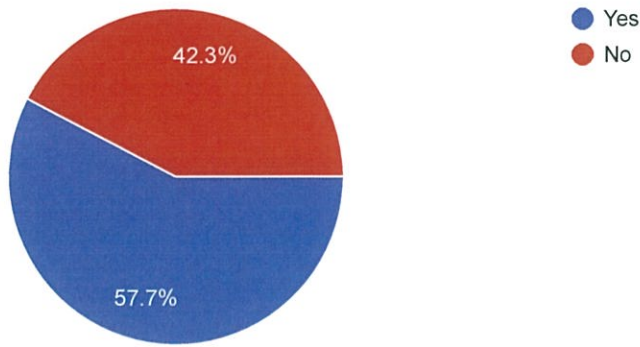

Would you be in favour of changing the current summer dress to a warmer uniform for winter for girls e.g. Pinafore or skirt and shirt or girl's pants?

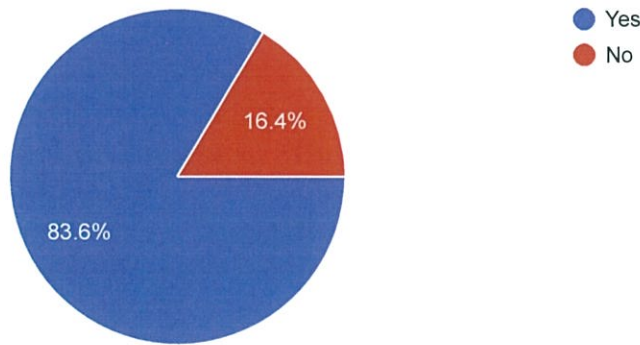

(47 responses)

Do you think a school scarf would be a useful addition to the winter uniform?
(52 responses)

Are you happy with the quality of the school hat? (55 responses)

Are there other areas of the school uniform you would like to see modified/added to?
(53 responses)

● Yes
● No

If yes, please comment: (27 responses)

Quality/material of sports top - it catches very easily when kids play and causes lots of pulls

Quality/material of sports top - it catches very easily when kids play and causes lots of pulls

A warmer tracksuit with no elastic toggle on the sides. Thicker material would also not wear as easily.
A better quality sports tshirt that doesn't pull as easily would look a lot smarter. The girls dress in winter is not warm enough
Also the hat looks ratty after only a few wears as the kids whiz it around by the elastic.

Warmer tracksuit, better socks for the girls (not all white), better quality sports shirts - I had to buy new ones this year after a couple of wears - really!! No elastic in the sports hat or tracksuit jackets for the kids to pull out and wreck

The boys pants need loop holes so they can wear a belt if need be or they need elastic in the inside so they are easy to adjust. The dress is made of heavy material and is uncomfortable when worn in the middle of summer. The skirt looks great but again is made of very heavy material for summer. The school bags zips are also faulty and the

Do you have any other comments or thoughts in regard to the school uniform? Please comment below:

Could the hat have a string under the chin to keep on.

Could the hat have a string under the chin to keep on.

See above comments.

Uniform should be STOCKED. Its a pain waiting weeks for the delivery of items. Can't understand why school can't keep an adequate stock ready to be purchased immediately

Changes to the policy are costly so just be careful!

Consideration to clothing should always be for functionality over "fashion". It would be nice to include leggings for girls as a well.

I think plain white ankle socks for the sports uniform should be allowed, or the price of socks should be reduced.

I think that any runners should be ok for sports uniform - not to be black or white - any colour ok

We would prefer the sports uniform to be the standard everyday uniform . I do not think the academic uniform is necessary in primary school. The kids dislike wearing it as it is uncomfortable and prevents them from free movement. Having to buy new sizes for the different uniform types every year becomes expensive.
